Teaching Artist Review

It was great having you visit with us here at the Marion County Juvenile Detention Center. The residents felt as if you were very down to earth. You were so gracious to let some of our residents hold and attempt to play your violin. Some of them had never held a instrument before. -Chanel Parker, Program Supervisor

Program Description

Students will use the violin to understand how fractions and reading musical notation are similar - whole note, half, quarter, eighth, and violin sizes: full, $\frac{3}{4}$, $\frac{1}{2}$. Students will also experience a demonstration of the overtone harmonic series and how it is divided into fractions.

Pricing

Single: \$128

Multiples: \$99 each
