## Program Description

Students will identify and produce rhyming words while learning how to segment words into syllables through dance. Students will come up with words ending with 'op' like hop, stop, pop, and chop and create a dance based on these rhyming words. Students will then work with different endings such as 'ip' like tip, dip, slip, etc. Specific words and rhyming words you are working on in class can be incorporated.

## Pricing

Single: \$90

Multiples: \$80 each
