**Program Description**

In these classes the students will create a video.

Each class start with 5 min of exercise to connect each other.

The first class is a brainstorm, explaining to the students what resources we have to work with (green screen, drawings, scenarios etc). We will also talk about their expectations, then I suggest some topics which they choose by vote, then everyone works together on developing a small story and creating a shooting plan.

The following classes will be recording and preparing the sets for the next scenes.

The editing will be in Final Cut, the students can be involved in this process if they are interested.

The classes will be taught in English and/or Spanish (depending on the students needs)

**Pricing**

Please contact the Arts for Learning office for residency pricing.
